

 **OFFICIAL LOGO**

Our logo has been invented  
in January 2021,  
We have made our company logo  
through 99designs.

ACryptoS offers 2 products on Binance  
Smart Chain, yield optimizer ACryptoS  
Vaults and stablecoin DEX ACryptoS  
StableSwap.

Our tokenomics and fees  
are designed to encourage longer term  
staking, and reward long term holders  
of our ACS and ACSI native tokens.

We adopted the Japanese Samurai's Head as our logo

The **samurai** is an important symbol in Japanese culture. Their Bushido code, aka “the way of the warrior,” made them role models for discipline, respect, and ethical behaviour in Japan. These warriors shaped the country through both warfare and their conduct

**We have a mission like samurai in our company !!!**

# Overview

---

## Introduction

ACryptoS offers 2 products on Binance Smart Chain, yield optimizer ACryptoS Vaults and stablecoin DEX ACryptoS StableSwap. Our tokenomics and fees are designed to encourage longer term staking, and reward long term holders of our ACS and ACSI native tokens.

## ACryptoS Vaults

ACryptoS Vaults grow your assets via automated yield Strategies. This saves users time and enables higher yields through more frequent compounding, more efficient gas utilisation, and other creative automations.

When you deposit into a vault, your tokens will grow over time. You do not need to manually harvest the vaults.

The image features a bold, minimalist design. A diagonal line from the bottom-left corner to the top-right corner divides the background into two solid color sections: a light orange section in the upper-left and a vibrant red section in the lower-right. The words "THANK YOU" are printed in a clean, white, sans-serif font, positioned in the lower-right area of the red section. The word "THANK" is on the top line, and "YOU" is on the line below it, both right-aligned.

**THANK  
YOU**
